FAR FROM AGREEMENT.

Block Coal Miners and Operators Are Still in Dendlock.

Special to the Indianapolis Journal. BRAZIL, Ind., April 3.—The mining situation is assuming a critical stage, as, notwithstanding the joint scale committees have held numerous sessions, they are apparently no nearer a settlement than they

The situation has become so critical that Mr. Fairley, member of the national board of the United Mine Workers of America, has been called to aid in securing a settlement and met with the joint committees from inhaling the hot smoke before they to-day. But few of the essential points in the controversy have been settled, the operators having stood firmly by their first assertions that they would not sign a scale varying a great deal from that of last year. The miners also are stubborn in their demands, and up to the present time have not conceded a point. The clause on which a deadlock has resulted is the one in which the miners demand the operators to remove the "gob" dust from the machines. This they insist is a portion of the miners' work. Mr. Fairley as yet has done but little towards bringing the warring factions to an amicable agreement.

All the engineers are on strike on account of the operators refusing their demands for a nine-hour day. They say they will remain from the mines and will ask for no more conferences, but will meet the operators when the latter request them to

It is dated March 12. At the ahead. meeting of the Central Labor Union tonight it was said that no such communication had been received. There is also published a communication as if from the Brotherhood of Railway Trainmen, steam railroads, signed by three brotherhood men, which purports to be a declaration by the brotherhood against the boycott. No such action was taken by the brotherhood lodge, and the Central Union appointed a committee to call on the lodge next Sunday. The Central Union declared off a boycott on a local commission house on the receipt from the house of a letter saying it had investigated the strike and believes the cause of the strikers to be just

POSTOFFICE SAFE BLOWN.

Large Amount of Money and Stamps Is Taken at Covington.

Special to the Indianapolis Journal. COVINGTON, Ind., April 3 .- The postoffice safe in this city was blown open early this morning, the interior of the office was wrecked and the doors of the safe were blown hrough a door twenty feet away. Dynamite was the explosive used, and the work was evidently that of experts. It is supposed that they left on an early morning train, as no trace of them has been found. All stamps and money orders and a large amount of money were taken. It being the first of the month. an unsual amount of money was in the safe, but Postmaster Boyd could not give the actual amount.

Entrance to the office was obtained through the front door with duplicate keys. A strange feature of it all is that the report was not heard by any one, and the robbery was not discovered until Postmaster Boyd opened the office about 6 o'clock.

Frightened Away from a Bank.

Special to the Indianapolis Journal. WARSAW, Ind., April 3 .- Four men attacked and robbed Night Watchman Boan, of Claypool, last night, and, leaving him bound and gagged, broke into the bank of Kinsey Bros., in that place, and blew open the outer door of the vault. Before the inner doors could be attacked the robbers were frightened away by the ringing of a telephone bell in the bank. Going to the stable of Festus Minear, near by, the men stole a team of horses and a two-seated buggy and made their escape. There is evidence that the attempted robbery was the work of professionals, and every effort is being made by Sheriff Smith and a posse of deputies to apprehend the robbers. Dur-

Special to the Indianapolis Journal. FORT WAYNE, Ind., April 3 .- The pending trial of the contest over the will and property of the late William Branstrator is attracting a large interest, not only because of the \$75,000 involved, but because of the bitterness developed among the heirs. He has a lawyer retained in his official interest. Judge Walter Olds has been retained to represent his personal interest, a situation which threatens to cause some of his brothers to petition the court for his removal on the ground that he cannot properly have a personal interest in conflict with his official interest. Y., April 3.-The Express will say to-morrow that it may authoritatively announce that the amount to be paid to the surgeons who attended President McKinley in Buffalo will not exceed \$25,000. Many unauthorized statements have been made regarding the surgeons' compensation, some placing it as high as \$150,000. This, the Express will say, has been exaggerated guesswork. The surgeons have not sent in bills. They declined to send in It is the Only Effective and Honany, saying the question of compensation must be settled entirely apart from any bills rendered by them. In the campaign preceding the Democratic primaries last Saturday Eagle opposed the renomination of Davis for Governor. Governor Davis to-night received from ex-Governor Eagle a reply in which the latter declined to surrender his commission as a member of the Capitol Commission.
